

WHITE LABELLING

When you partner with Wifinity, it's not a one-size-fits-all solution. Instead, we work hard to tailor-make our commercial agreements, so our customers get the products and services they need from a brand they know and trust.

And we want you to do the same for your customers, which is why you have the option to fully white-label our service.

From the network name they connect to through to the portal where they submit their details, your branding will be all your customers sees.

And if they need to give our Customer Support team a call, they'll hear your greeting delivered in your tone of voice, creating a consistent, end-to-end customer experience that represents your brand.

We've successfully deployed our white-labelled products in the Holiday Park and Residential sectors to significant effect, and it's a service our customers—and their customers—love.
