wifinity
for student housing

Reliable, high-speed internet for connected student living.

Support resident wellbeing, modern learning, operational efficiency and ESG goals with home-from-home, high-speed connectivity, smart building technology and managed IT support. Wifinity's fully managed service seamlessly connects and supports students, staff and systems across every type of accommodation.

From day-one broadband to smart campus integrations, we provide scalable, fully managed solutions built on robust, multi-vendor infrastructure.
